

Helios Chapter Rose Croix No 8

Helios Chapter No.8 was consecrated in the Masonic Rooms of 8 Jerusalem St in Limassol on the 15th March 2014.

The Chapter meets four times a year. It works the Universal Ritual in the Greek language.

The Chapter dedicates its title to the Sun which is dominant amongst the masonic symbols. It is the source of the material light and truth. It is the power of life not only on Earth but in the whole of our stellar system.

Since the beginnings of civilization human beings were in awe of the properties of the sun and due to this its worship was introduced. The ancient civilizations were aware of the beneficial value of the Sun on the earth.

We no longer worship the sun in contemporary times but the Sun, however, as the great star of the day, holds a very high position in the philosophical symbolism of Freemasonry.

The Sun as the source of light symbolises the knowledge and the truth because its light is not confined only to itself but is reflected on all the planets, and stellar bodies that surround it.
